

Faculty Position in Premium Research Institute for Human Metaverse Medicine (PRIMe),

## Osaka University

DutlineThe Premium Research Institute for Human Metaverse Medicine (WPI-PRIMe) at Osaka University aims to create a new scientific field, Human Metaverse Medicine, by combinin two academic disciplines: human organoid-based biomedical science and information mathematical science. This new field seeks to understand and provide solutions for chroni diseases. We are looking for one Specially Appointed Assistant Professor (Full-Time) to join a new established team led by Dr. Elisa Domínguez Hüttinger.1. PositionSpecially Appointed Assistant Professor (Full-Time)2. Number of PositionsOne3. AffiliationPremium Research Institute for Human Metaverse Medicine (PRIMe), Osaka University4. Work LocationSuita Campus (2-2 Yamadaoka, Suita-City, Osaka, Japan)5. Specialized FieldMathematical and Computational Modeling: - Multi-scale mathematical models of - Dynamical models of regulatory networks across scales. Data Analysis and Bioinformatics: - Systems-Based Approaches to Medicine: - Systems medicine. - Creating digital twins of complex piblelial tissue diseases.6. Responsibilities- PhD degree (or an equivalent qualification) in systems biology or a closely related field. - Proven research experience in systems biology. - Ability to work independently as well as collaboratively within a team.
2. Number of Positions       One         3. Affiliation       Premium Research Institute for Human Metaverse Medicine (PRIMe), Osaka University         4. Work Location       Suita Campus (2-2 Yamadaoka, Suita-City, Osaka, Japan)         Mathematical and Computational Modeling:       -         -       Multi-scale mathematical modeling.         -       Dynamical modeling of complex biological systems.         -       Mathematical and Computational Modeling:         -       Multi-scale mathematical models of regulatory networks across scales.         Data Analysis and Bioinformatics:       -         -       Statistical analysis of clinical and experimental data.         -       Computational biology and bioinformatics.         Systems-Based Approaches to Medicine:       -         -       Systems medicine.         -       Creating digital twins of complex epithelial tissue diseases.         6. Responsibilities       -         6. Responsibilities       -         -       PhD degree (or an equivalent qualification) in systems biology or a closely related field.         -       PhD degree (or an equivalent qualification) in systems biology or a closely related field.         -       Proven research experience in systems biology.
3. Affiliation       Premium Research Institute for Human Metaverse Medicine (PRIMe), Osaka University         4. Work Location       Suita Campus (2-2 Yamadaoka, Suita-City, Osaka, Japan)         Affiliation       Mathematical and Computational Modeling: <ul> <li>Multi-scale mathematical modeling.</li> <li>Dynamical modeling of complex biological systems.</li> <li>Mathematical models of regulatory networks across scales.</li> </ul> 5. Specialized Field       Data Analysis and Bioinformatics: <ul> <li>Statistical analysis of clinical and experimental data.</li> <li>Computational biology and bioinformatics.</li> </ul> 5. Specialized Field       Construction, calibration, validation, and analysis of mechanistic mathematical models of complex biological systems.         6. Responsibilities       Construction, calibration, validation, and analysis of mechanistic mathematical models of complex biological systems.         7. PhD degree (or an equivalent qualification) in systems biology or a closely related field.       Proven research experience in systems biology.
4. Work Location       Suita Campus (2-2 Yamadaoka, Suita-City, Osaka, Japan)         Mathematical and Computational Modeling: <ul> <li>Multi-scale mathematical modeling.</li> <li>Dynamical modeling of complex biological systems.</li> <li>Mathematical and Bioinformatics:                 <ul></ul></li></ul>
6. Responsibilities <ul> <li>Construction, calibration, validation, and analysis of mechanistic mathematical models, systems.</li> <li>Systems and statistical analysis of data obtained from cells, organoids, and patients.</li> </ul> 6. Responsibilities <ul> <li>PhD degree (or an equivalent qualification) in systems biology or a closely related field.</li> <li>PhD degree (or an equivalent qualification) in systems biology or a closely related field.</li> </ul>
5. Specialized Field       - Multi-scale mathematical modeling.         5. Specialized Field       - Mathematical models of regulatory networks across scales.         Data Analysis and Bioinformatics:       - Statistical analysis of clinical and experimental data.         - Computational biology and bioinformatics.       Systems-Based Approaches to Medicine:         - Systems-Based Approaches to Medicine:       - Creating digital twins of complex epithelial tissue diseases.         6. Responsibilities       - Construction, calibration, validation, and analysis of mechanistic mathematical models of complex biological systems.         - Bioinformatics and statistical analysis of data obtained from cells, organoids, and patients.       - PhD degree (or an equivalent qualification) in systems biology or a closely related field.         - Proven research experience in systems biology.       - Proven research experience in systems biology.
6. Responsibilities       models of complex biological systems.         -       Bioinformatics and statistical analysis of data obtained from cells, organoids, and patients.         -       PhD degree (or an equivalent qualification) in systems biology or a closely related field.         -       Proven research experience in systems biology.
field. - Proven research experience in systems biology.
<ul> <li>7. Requirements</li> <li>Eagerness to engage in a wide range of scientific projects.</li> <li>Strong communication skills in English, both oral and written.</li> <li>Proficient analytical and programming skills, coupled with experience in mechanistic modeling of complex biological systems and a solid understanding of fundamental biology.</li> </ul>
8. Starting Date After April 1st, 2025 (as soon as possible thereafter)
<ul> <li>9. Term of employment</li> <li>From the starting date until March 31st, 2026 *Following completion of the term, the contract may be extended, subject to the continuity of work and performance evaluation. *The maximum cumulative contract term is 10 years from the starting date, based on "Regulations Pertaining to Contract Period of National University Corporation Osaka University Fixed-term Staff, etc."</li> </ul>
10. Probationary Period 6 months

11. Employment Form	Based on "38. Regulations Pertaining to Working Hours, Holidays and Leave for National University Corporation Osaka University Limited Term Staff" <u>https://www.osaka-u.ac.jp/en/guide/information/joho/kitei_shugyou.html</u> *The Discretionary Labor System, Special Work Type will be applied with the applicant's consent, with deemed working hours set at 8 hours per day)
12. Salary	Based on "48. Salary Regulations for National University Corporation Osaka University Limited Term Staff (Specially Appointed Staff, etc.) Subject to Annual Salary System" <u>https://www.osaka-u.ac.jp/en/guide/information/joho/kitei_shugyou.html</u>
	Remuneration: 4,851,900 JPY and above per annum. (Monthly payments will be one-twelfth of annual salary) *The salary will be determined based on the assigned responsibilities, as well as the applicants' qualifications and experience. *A commuting allowance is provided. *Bonuses and allowances for housing, dependents, and retirement are included in the aforementioned annual salary and will not be paid separately.
13. Insurance	Medical insurance and employee's pension insurance of the Federation of National Public Service Personnel Mutual Aid Associations, Employment Insurance and Industrial Accident Compensation Insurance
14. Application Documents	<ol> <li>A Curriculum Vitae, including publication lists (original papers, review papers, books, patents, presentations at international conferences, etc.)</li> <li>A brief summary of past research and current interests (limited to one A4 page)</li> <li>Ambition for research and after appointment as Specially Appointed Assistant Professor (limited to one A4 page)</li> <li>Letters of recommendation (two letters) (Each letter should include referees' names, affiliations, and positions)</li> <li>*Personal information provided in the application documents will solely be used for the purpose of screening and hiring procedures and will not be disclosed to any third party.</li> </ol>
15. Sending Address and Contact Information	Please submit your application by e-mail to: i-prime-syomu★office.osaka-u.ac.jp (Please replace "★" with @) *Use the subject line "Application for Specially Appointed <u>Assistant Professor</u> in Dr. DOMÍNGUEZ-HÜTTINGER'S Group." *Attach the application documents in PDF format, ensuring security measures are in place. <contact> General Affairs Division, Premium Research Institute for Human Metaverse Medicine (WPI-PRIMe), Osaka University TEL: +81-6-6210-8312 e-mail: i-prime-syomu★office.osaka-u.ac.jp (Please replace "★" with @)</contact>
16. Application Deadline	December 25, 2024 (Japan Standard Time)* or until the position is filled
17. Selection Process	The selection process will begin with document screening, followed by interviews. Only selected applicants will be notified. Travel and accommodation expenses incurred for the interviews will be the responsibility of the applicants. Applicants may request to arrange an online interview.

18. Additional Information	Concerning work conditions other than above-mentioned, please refer to "36. Work Regulations for National University Corporation Osaka University Limited Term Staff" and/or related regulations. <u>https://www.osaka-u.ac.jp/en/guide/information/joho/kitei_shugyou.html</u>
	Please note the above-mentioned work conditions are accurate as of the day this employment offer is posted but are subject to change. In principle, there will be no changes to the affiliation, work location, or responsibilities after employment. "Deemed exports" related to security export control are based on "Regulations Pertaining to Security Export Control".
	Osaka University is committed to promoting gender equality and providing various support for female academic staff members. We strongly encourage female candidates from female candidates. <u>http://www.di.osaka-u.ac.jp/en_lp/</u> Osaka University campuses and related facilities are smoke-free, except for designated areas.
19. Recruiter	National University Corporation Osaka University
